**Loop Pro
Your New
Coil Clamp**

Because you've got the hang of it

Once the Loop Pro is fixed, everything goes very quickly. You can unroll or rewind the coil to the desired cut-off length in no time at all and with absolute safety. You don't have to readjust - the Loop Pro has everything under control.

Get the new Loop Pro now for your next job!

"It's the ultimate
labor saver."

**Günther Sandelmann,
Master Tinsmith**

Coil Clamp Loop Pro

Application

Cool Clip: The Loop Pro holds sheet metal coils up to 100 kilograms and makes unrolling and rewinding child's play, also ideal for storing multiple coils on a pallet.

Advantages & Comfort

- Lightweight and compact: Is very easy to carry and store thanks to its light weight. It is therefore ideal for use on construction sites
- Convenient: Opened coils can be stored super easily
- Strong and flexible: Holds coils up to max. 100 kg and adapts to the coil diameter (280-420 mm)
- Secure: Holds the coil in place, even without attaching the Loop Pro to the pallet

Item no. 04260000
