Transfor.Maxx
Your Gutter
Hanger Bender

Because it also works one-handed

Because the Transfor.Maxx makes it possible to angle or bend with just one hand. For better leverage the gutter hanger bender is fixed with the foot for better leverage. Result: Very ergonomic, absolutely precise work.

Get the Transfor.Maxx for your next construction site!

„Easy to use and
cleanly bent.“

**Kevin Ziegler,
Master Roofer**

Gutter Hanger Bender Transfor.Maxx

Application

Ergonomic single-handed tool: Bends gutter hangers with a clampng range up to 8 millimeters!

Advantages & Comfort

- Stable: Non-slip rubberized foot step
- Precise: Strong magnetic locking device for right-angled bending of the gutter hangers
- Flexible: Telescoping steel tubes (600, 700, 800 mm) for nine working positions and different body sizes as well as adjustable leverage
- Mobile: Small pack size for easy transport and storage
- Precise: Bending angle is continuously adjusted with fine-thread screw
